

Media Packs

Here you can find a list of media packs. These are separate from the main asset in order to keep the file size down, which allows me to release updates more efficiently.

[FREE] Alien Worlds Pack

This pack contains a selection of realistic looking planets with an alien theme.

NOTE: This pack requires the full **Space Graphics Toolkit** asset to function.

https://bitbucket.org/Darkcoder/spacegraphicstoolkitpacks/downloads/AlienWorldsPack_3_5_8.unitypackage

[FREE] Solar System Pack

This pack contains all major solar system bodies, including the Moon and multiple versions of The Sun.

NOTE: This pack requires the full **Space Graphics Toolkit** asset to function.

https://bitbucket.org/Darkcoder/spacegraphicstoolkitpacks/downloads/SolarSystemPack_3_6_1.unitypackage

[FREE] Star Pack

This pack contains a variety of stars, nebulae, and galaxies.

NOTE: This pack requires the full **Space Graphics Toolkit** asset to function.

https://bitbucket.org/Darkcoder/spacegraphicstoolkitpacks/downloads/StarPack_3_5_8.unitypackage

[PAID] Planet Pack 1

This pack contains 25 high resolution planets across a wide range of planet types.
